<td>Very Helpful</td>
</tr>
</tbody>
</table>

2. Please state THREE things about supervision that you found helpful supporting your practice?

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

3. Tick the areas benefited as a result of clinical supervision:

- Assessment skills
- Clinical Formulation
- Interviewing skills
- Mental health/co-morbidity
- Intervention skills
- Dealing with team issues
- Self-care

(e.g. boundary issues, dealing with difficult clients, referring on)

Any Other areas (Please state): __________________________________________________________

4. What recommendations do you have to improve future clinical supervision?

5. Any further comments that might be helpful for planning supervision?
